WELCOME

The articles contained within are designed to provide up to date information about GTC's services, so that all clients are better able to make informed educational decisions.

Moving Forward

Making the decision to open Griffith Tutoring Centre was based on a desire to improve the educational support services available to students within the Griffith area. As with establishing any new business, the first few months of operation were a daunting prospect.

Thanks to many loyal preexisting clients and a wonderful local community, GTC has been able to double our student caseload within the first 6 months of operation. This, in turn, has necessitated the employment of new teaching staff.

Moving into 2021, Griffith Tutoring Centre is even better placed to support local students in their studies. Our staff will continue to expand, with teachers qualified in **Extension Mathematics**, **Physics** and **Special Education** joining our ranks. Additionally, we will continue to invest significant funding and effort into the development of new learning materials.

"Our son's grades improved dramatically, he has so much more confidence and it is amazing the difference tutoring can make. Aydan found Dani exceptional to talk to and highly valued her direction and critique. A truly rewarding experience for Aydan and wonderful assurance for us as his parents."

-- SUSANNA, Griffith
